FY10 DENSO **FY11 F** 

09 / 16

## **Topics**

## **Mid-term Profit Recovery Activities**

### Our Approach for Future Growth: Strengthen business, cost and management

**Business** 

- Technology innovations for fuel efficiency/CO2 reduction
- Strengthening of regional competitiveness

Cost

- Low-cost technology
- Value-added improvement

**Management** 

- Management to maximize group capability
- Challenge mind-set

#### Establishment of Low-cost Technology

#### Idea of product development

Review of all processes from the design to production Establishment of low-cost technology as a new technical field

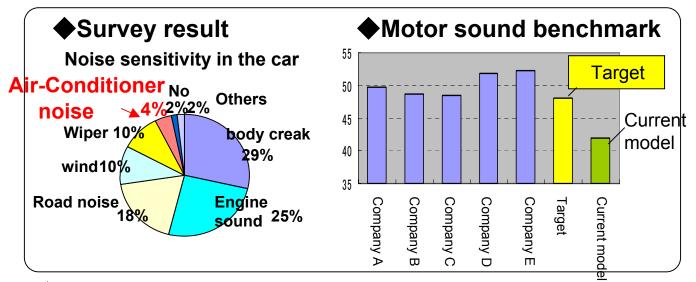

#### **Activities for Cost-half product**

| 1. Optimum function                                                    | 2. Optimum quality                                                       | 3. Optimum production              | 4. Promotion of localization                                                                    |
|------------------------------------------------------------------------|--------------------------------------------------------------------------|------------------------------------|-------------------------------------------------------------------------------------------------|
| - To narrow the function and performance through benchmark activities. | - To loosen quality<br>/performance<br>standard to meet<br>market demand | - Optimum design for local process | <ul><li>Local material, die and mold, equipment</li><li>To utilize existing equipment</li></ul> |

Current status: Achieved 40 percent cost reduction
Promoting these activities to achieve the target by the end of this FY

Improve profitability by competitive product technology

#### Appropriate function, performance and quality

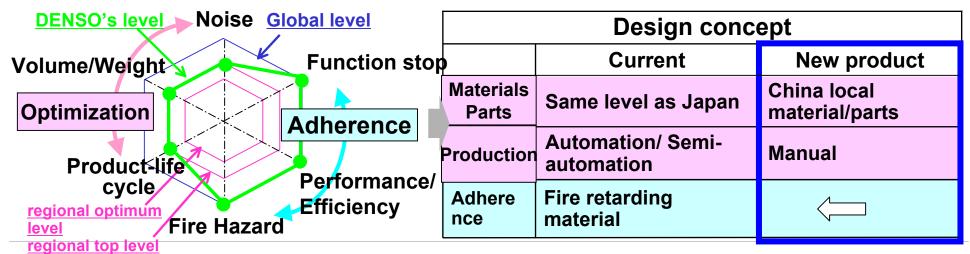

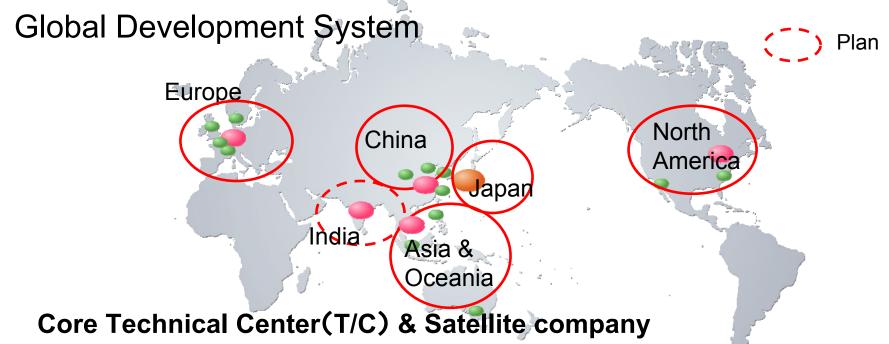

Blower motor

#### Concept for the new product design

Establish the development system in which optimum products in each region can be designed in each region

#### **Expansion of regional technical center**

#### China

25 manufacturing companies

#### India

5 manufacturing companies

#### the technical center in India

Location

Gurgaon, India

**Establishment:** 

Late 2011

**Investment:** 

Approximately 3 billion yen (approximately US\$35.5 million\*)

Total floor area:

5,040 m<sup>2</sup>

**Employees:** 

Approximately 70 (projected for 2015)

#### the technical center in China

Location: Shanghai, China

Establishment: May 2010

Total floor area: 4,700 m<sup>2</sup>

Employees: 152

 Low-cost product development in China

 Local engineer's personnel training

#### Interim dividend per share: 22 yen

44 yen for the year in plan
