

## Water Quality by Facility (Fiscal 2024) [DENSO CORPORATION]

Units: PH (none), Escherichia coli (units/ml), others (mg/L), — (no setting), permeability (cm), total amount of items measured (kg/D), ND (below the detection limit)

Regulatory values: Represent the most stringent values according to environmental laws, ordinances, and agreements. When an item is measured only once, the regulatory value is the number indicated in the "Highest" column.

### Head Office

Items of Measurement	Regulatory Values	DENSO Standards	Measurement Values		
			Lowest	Average	Highest
