

Progress that respects the planet.

DENSO's mission is to contribute to a better world by creating value and bring hope for the future and contribute to a green and worry-free world by Two Great Causes: green and peace of mind.

Green

In the field of green, we aim to realize carbon neutrality within our Monozukuri activities in the not-too-distant future of fiscal 2036. To promote the widespread adoption of electrified vehicles that help reduce environmental impact, we are working to offer a broad range of solutions tailored to the diverse energy situations and infrastructure conditions of different countries and regions. Through these efforts, we aim to contribute to the realization of a carbonneutral society.

Peace of Mind

With regard to peace of mind, we are working to popularize advanced driver assistance systems (ADAS) with the aim of eliminating traffic accident fatalities. To that end, in addition to enhancing the performance of safety technologies, we will offer a broad range of products tailored to the specific energy situations and infrastructure conditions of each market, from simple and affordable components to ADAS equipped with state-of-the-art technologies such as AI. Through these efforts, we will work to realize a society where everyone can enjoy the benefits of safe and secure mobility.

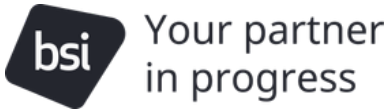

CO² neutral In DENSO Indonesia

In its commitment to carbon neutrality, PT DENSO Indonesia (DNIA) has once again achieved a significant milestone in its sustainability journey by successfully obtaining carbon neutrality verification in based on the ISO 14068-1:2023 standard and being recognized as a Verified Carbon Neutral Company.

This achievement is also the result of several environmental initiatives that DENSO Indonesia has consistently implemented, including energy efficiency, carbon emission reduction, and the implementation of various supporting programs aligned with DENSO's vision of creating a greener and more sustainable future.

This achievement strengthens the company's commitment to achieving more environmentally friendly operations and ensures that its decarbonization efforts meet credible and transparent international standards.

Through this verification, DNIA has become one of the pioneering companies within the DENSO and Astra Group ecosystems to successfully meet the ISO 14068 standard for Carbon Neutrality. This verification not only recognizes the various emission reduction initiatives the company has implemented but also strengthens DNIA's position as a proactive company in supporting the global sustainability agenda and net-zero emission targets.

Verification Opinion

Subject: PT Denso Indonesia	
Verified as Satisfactory	
Reasonable Assurance: For the part of the Carbon Neutrality Claim Executive Summary of Carbon Neutrality Report for Reporting Period of 2025 produced by PT Denso Indonesia, that is related to the direct GHG emissions and removals (scope 1) and the indirect GHG emissions from imported energy (scope 2) reasonable assurance has been conducted	
Based on the processes and procedures conducted it is concluded that for this part of the Carbon Neutrality Claim it:	• is materially correct and is a fair representation of GHG and carbon neutrality data and information.
	• has been prepared in accordance with ISO 14068-1:2023 and its principles
