

***DENSO***  
Crafting the Core

DENSO Philippines Corporation

A large, modern, multi-story office building with a glass facade and a red DENSO logo on the top left corner. The building is set against a blue sky with white clouds. In the foreground, there is a green lawn and a yellow playground structure.

# DENSO Global

DENSO is one of the largest global automotive suppliers of advanced technology, systems and components, heading toward an automotive society where cars have less impact on the environment and drivers have fewer worries about traffic accidents.

**1949**  
established

US **\$40.4** billion  
in annual sales

**150,000**  
employees  
in 200 Group companies

## Philosophy and Vision

### DENSO Philosophy

Contributing to a better world by creating value together with a vision for the future.

### Long-Term Policy

Bringing hope for the future for our planet, society and all people

### Mid-Term Policy

1. Contribute to society, focusing on environment, security and safety
2. Evolve technological development and manufacturing to satisfy diverse needs
3. Promote continuous development to motivate associates in learning, thinking and challenging mind

### DENSO Spirit

The DENSO Spirit expresses values and beliefs shared by our employees around the world that have driven us to contribute to the automotive industry and society as a whole since our establishment in 1949.

#### Foresight

Vision  
Creativity  
Challenge

# DNPH Capabilities

DNPH is committed to total customer satisfaction thru promoting safety and quality to all its major frameworks: from sales to design engineering to manufacturing including its support groups.

## Corporate Events

Associates in DENSO Philippines are encouraged to participate in company activities such as summer outings, year-end parties and sportsfests, that develop camaraderie, teamwork and sportsmanship. Additionally, associates are given a chance to lead by volunteering to be committee members, empowering them to be their best.

## Corporate Social Responsibility

We work toward our mission of contributing to a better world by not only developing products that minimize our environmental impact and help reduce fatal traffic accidents, but by strengthening our relationships with local communities through education, volunteer programs and contributions.
