Finding In-Network Providers

Unparalleled Provider Network

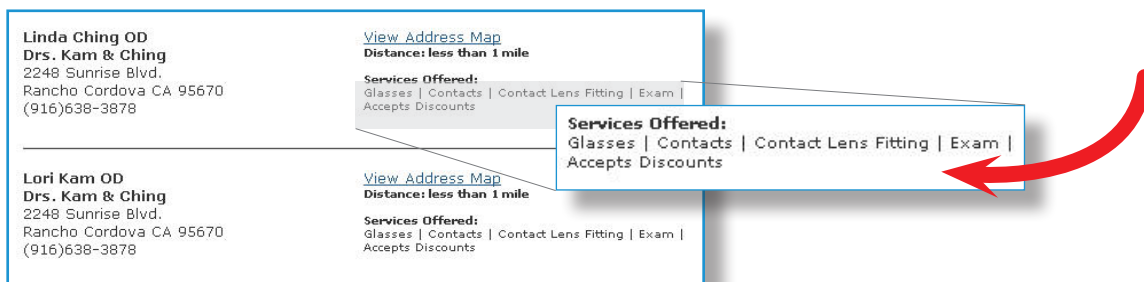

Superior Vision has one of the nations largest provider networks, consisting of ophthalmologists and optometrists. We also have most national and regional optical chain locations, including Wal-Mart Vision Center, Target Optical, LensCrafters, Sam's Club Optical, Sears Optical, and many others. Finding the right eye care provider for you within our network is easy.

1. Login to www.superiorvision.com. Click on "Locate a Provider".

2. Enter your zip code and select the mile radius in which you would like the search to take place. Click "Search". You may also choose "Advanced Search" to find a specific provider by name, practice, or city.

3. Review the list of eye care providers, and choose a provider. Make sure to review **Services Offered** and the provider's acceptance of discounts.
4. You may also call Customer Service at 800-507-3800.

Not all providers at each office or optical store location are network providers, so make sure to verify provider participation before you schedule your appointment. We look forward to providing you with Superior service.
