

Why Associates love Hinge Health

“Hinge Health is really concerned about each member...The coach, physical therapist, and the administrators - **everywhere you turn there is help.** [My personal PT adjusted] the program to fit my personal goals.”

–Hip program participant, DENSO

“I’m loving being able to do more things without pain. **I feel the best I have felt in over a year** so I’m not going to stop.”

–Back program participant, DENSO

“**My need for surgery is dwindling!** I have already noticed how my knee doesn’t give out as easily as it used to, it’s getting stronger!”

–Knee program participant, DENSO
